No Deforestation Commitment

F&F Holdings Co., Ltd. (hereinafter referred to as the "Company") recognizes the potential risk of forest degradation arising from its business activities. In line with the United Nations' Sustainable Development Goals (SDGs), the Company is fully aware of the issues caused by deforestation and is committed to actively addressing these issues. To combat climate change and protect the ecological value of forests and land, the Company is committed to preventing deforestation and minimizing risks or damage related to forest expansion by carrying out the following activities:

1. The Company will minimize the use of fabrics, raw materials, and manufacturing processes that pose a high risk of deforestation throughout its operations, while being mindful of deforestation risks and the importance of forest conservation.
2. The Company will make efforts to mitigate deforestation across all stages of its manufacturing process, including apparel production. The Company will monitor and assess potential deforestation impacts during its operations. This commitment extends beyond its own business sites to include first-tier and other suppliers, ensuring efforts to eradicate deforestation and protect the environment.
3. The company will strive for afforestation and greening of its operational sites and the regions where it operates. When necessary, we will collaborate with civic groups, environmental organizations, and professional institutions to achieve these goals.

[Supplementary Provision]

1. This declaration was approved by the ESG Committee and takes effect on June 14, 2023.
2. The declaration will be reviewed annually to reflect domestic laws, international guidelines, stakeholder opinions, and societal changes, with revisions made as necessary.
